1.1 Quick reference table

Research question	Key chapters	Case study
Map a research field	16, 19, 22	CS 1: CRISPR
Evaluate an author	10, 12	—
Evaluate a journal	11	CS 3: Journal Portfolio
Benchmark an institution	13	CS 2: Institutional
Detect emerging topics	14, 24, 25	CS 5: Emerging Topics
Analyze collaboration	15, 18	—
Study gender gaps	28	CS 4: Gender Gap
Track open access	27	—
Build a dashboard	35, 37	—
Create a reproducible pipeline	34, 36	—
